Careers with a future – for women

Technology needs you. Get involved.

Bricklayer

Would you like to pursue a skilled trade? Do you enjoy working outdoors? Do you like doing crafts? Then this profession is just right for you! As the first person on a construction site, you lay the foundation for future buildings, single-family homes or industrial buildings. You then assemble the load-bearing elements: walls, beams and ceilings.

You can work on construction sites, but also on renovations or demolition of old buildings. You can construct traditional or modern buildings and contribute to the design of living, working or leisure spaces and to everyone's comfort. Between digital models and the use of increasingly environmentally friendly materials, bricklaying is a profession that is constantly adapting to the needs of tomorrow.

An Erasmus+ Projekt

by BBS Osterholz-Scharmbeck; by Höheren Technischen Bundeslehranstalt Steyr; by Lycée polyvalent et UFA Émile Mathis, Schiltigheim
