Careers with a future – for women!

Technology needs you. Get involved.

CAR MECHATRONICS TECHNICIAN

If your car breaks down in the future, it probably won't be such a big problem for you. As an automotive mechatronics technician, you can help yourself and have a very sustainable profession. And depending on what interests you, you can take care of cars, lorries and motorbikes or focus on system and high-voltage technology.

As an automotive mechatronics technician, you have great job opportunities and a secure future. Whether you prefer to work in a team or independently - both are possible and offer you the perfect mix of variety and challenges.
