Taster workshop 'Experience technology'

Information for vocational training centres

Painter and varnisher

The speciality: 'Combining precision with creativity'

Programme

Here we go: A decorative panel is designed

Preparation:

If you have not already bought primed MDF boards: prime them

Cut the cloths to size (one for each person)

Material list:

- MDF 600mm x 400mm x 3mm (individually selectable)
- Cloths (old shirts, for example)
- Gold adhesive tape
- emulsion paint

+ Technical information:

Tools required:

- Cutter oder graphic knife
- Colour tubs
- Stirring stick
- pencil

Notes on the procedure:

- Apply gold tape to the centre of the plate, overlapping slightly
- Draw a motif on it (letter, symbol, etc.) and cut it out with a knife.
- Carefully dip the cloth into the colour, crumple it and unwind the ribbon, one strip at a time, applying light pressure. If desired, add a second colour when dry: Repeat the process
- Carefully remove the adhesive tape with the desired motif.

Safety instructions::

- Caution when handling cutting tools
- Wear work clothing
