Are you fascinated by robotics? Then, a career as an automation technician is for you! As a professional specializing in the installation, maintenance and repair of automated systems used in various industrial sectors, you will program, configure and ensure the proper functioning of programmable logic controllers and human-machine interfaces.

As an automation technician, you will be called upon to work in a wide variety of fields, as you will be designing, installing and maintaining automated systems in all areas of activity. The skills required are at the heart of new technologies and are largely multidisciplinary: mechanics, electricity, electrical engineering, automation, industrial IT, pneumatics, hydraulics, etc.

### An Erasmus+ project

By BBS Osterholz-Scharmbeck; by Höheren Technischen Bundeslehranstalt Steyr; by Lycée polyvalent et UFA Émile Mathis, Schiltigheim

Co-funded by  
the European Union
